Protecting Yourself From Telemarketers:

You have the right to check out any caller by requesting **written information, a call back number, references and time to think over the offer.**

Consumer Tip:

Legitimate business people will be happy to provide you with that information. After all, they want the "bad guys" out of business too. Always be careful about providing confidential personal information, especially banking or credit card details, unless you are certain the company is legitimate. And, if you have doubts about a caller, your best defense is to simply hang up. It's not rude – it's smart.

If you're in doubt, it's wise to ask the advice of a close friend or relative, or even your banker. Rely on people you can trust.

Remember, you can Stop Phone Fraud -Just Hang Up!

This tip is courtesy of Phone Busters. For more information on protecting yourself from telemarketers visit their website at www.phonebusters.com.

Don't miss a call while shopping at Moonlight Madness on Thursday August 16th.
