

## BOARD OF DIRECTORS 2006

The Annual General Meeting of Mornington Communications Co-operative Limited was held at the Perth East Recreation Complex on April 19, 2006. There was an election of Directors. Jaret Henhoeffler was elected for a three-year term and Helen Dowd was elected for a one-year term.

The **2006 Board of Directors** are as follows:

Chair - Doug Biesinger

Vice Chair - Bill Nahrgang

Directors - Helen Dowd, Jaret Henhoeffler and Chuck Meyer

Mornington Communications also extends thanks and appreciation to retiring Directors Donald Jack and Tim Dowd for their years of service and expertise on the Board.

## 10 DIGIT DIALING

### 10 digit local dialing - starting June 17, 2006

Several area codes, including 519, will soon be reaching its capacity. Starting June 17, 2006 dialing 10 digits will be necessary. That is why, from now on, Mornington Communications encourages you to dial the area code for all your local calls. Starting in October, 10 digit dialing will be mandatory and any 7 digit dialed call will not be completed.

**Do you have a cottage or seasonal home?**

Why not switch to **ALTO Long Distance!**  
Not only will your long distance be all on one bill,  
You could be earning more if a dividend is declared!

**NEW AT CYG.NET!****Does your Business need a website?**

A website - and the service it can provide - is essential for a 21<sup>st</sup> century business. To get some indication of how immediate your need for a site is, check out the presence of your competitors on the web. None of them have a website yet? Lucky you, you have time to edge ahead of the competition. Your competitors already have a website? Get to work fast! Here are ten more reasons why your business needs a website:

1. Your business is continually open to the world.
2. Information on your site can be changed at anytime.
3. You can reach new markets with a global audience.
4. Your customer service will be improved.
5. A website helps you present a professional image.
6. You can sell your products.
7. The web enables you to promote your services.
8. You can gather information and generate valuable tools.
9. A website provides instant gratification to your customers.
10. A website can be a great recruiting tool.

Cyg.Net Internet's web hosting employs the very best in equipment and technology to provide fast and safe delivery of your web content to the world! Cyg.Net Internet can provide the latest tools to help you build a functional and attractive site. With the addition of Site Builder, you can quickly design and create your own website by using a variety of templates and with Traffic Statistics included in your plan, you can closely monitor how your website is getting your message out.

Web Hosting Services at Cyg.Net Internet puts you in control of your site. Our Plesk servers allow you to add and delete domain email accounts at your convenience, add auto responders, forward addresses. Our servers also support PHP, ASP, Front Page Extensions, SSL Secure, My SQL and a number of other data base applications.

<b>Web Hosting Plans</b>
