About Parental Controls

Parental Controls allow you to determine shows children can watch and shows that can be restricted to adults only. You can:

- Temporarily disable or enable all parental controls.
- Specify the movie rating and TV rating that corresponds to the "most mature" rating that the movie or TV show can have in order for the subaccount to be able to view it.
- Specify whether or not the subaccount can view movies or TV that have been rated for sexual situations, language, suggestive dialog, violence, or fantasy violence.

As a primary account holder, you can add secondary users (subaccounts) and assign them to other household members. You configure each subaccount with its own username and password, then optionally assign other attributes, such as a rental allowance.

Mornington On Demand is a feature included with Digital Television. Subscribers can rent movies and series at their own leisure.
If you do not want this feature, call to have it removed, 519 595 8331.
